02

Applications

SYENA is a drone platform which dedicated for agricultural applications.

03

Features

- 20+ mins Endurance
- Obstacle avoidance
- Carbon-fiber & Aviation grade aluminum construction
- Modular design
- Autonomous and Manual flights
- GPS & Radar
- Continuous operation data monitoring

The Team Behind Us

Teamwork Is The Key

CEO

Pradeep Palelli, CEO of Thanos, a DGCA Certified Drone Pilot, holds a B.E. (Hons.) in Electronics & Instrumentation from BITS Pilani (2008). With 15 years of experience, including 12 years in start-ups like Zolt Energy, he drives business and operations at Thanos.

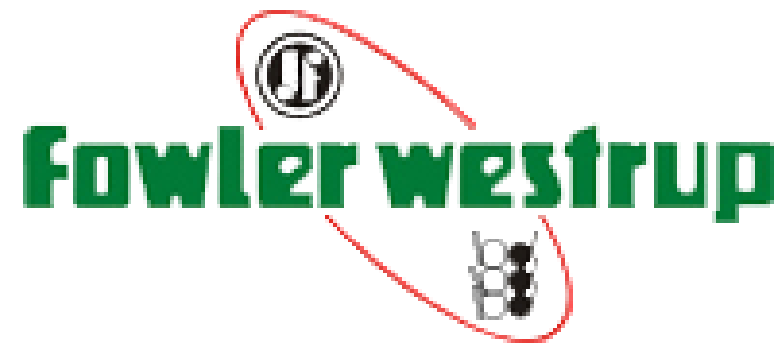

Marketing

Rainak Ghosh, a seasoned Marketing pro. With vast experience in shaping successful strategies for Indian enterprises, I lead marketing at Thanos. His passion? Deciphering market trends, enhancing strategies, and creating new business avenues. I hold an MBA and a BTech degree.

CTO

Prathyush Akepati, CTO at THANOS, is a DGCA Certified Master Drone Trainer with an EPM in Finance from IIM-C (2010). With 17 years of experience, he was a Founder at SLIMZ and Co-Founder at Indo-Irish Solutions, specializing in designing and building Aerial Platforms.
